Docket No.: 1185.1045

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of:

Shingo OHKAWA et al.

Serial No. 09/273,449

Group Art Unit: 2871

Confirmation No.

Filed: March 22, 1999

Examiner: D. Chung

For: SURFACE LIGHT SOURCE DEVICE OF SIDE LIGHT TYPE AND LIQUID CRYSTAL DISPLAY

AMENDMENT

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

This is in response to the Office Action mailed September 25, 2001, and having a period for response set to expire on December 25, 2001. A Petition for a three -month extension of time, together with the requisite fee for same, is submitted herewith, thereby extending the period for response to March 25, 2002.

The following amendments and remarks are respectfully submitted. Reconsideration of the claims is respectfully requested.

**IN THE SPECIFICATION:**

Please AMEND the second full paragraph at page 1 as follows:

--Liquid crystal displays of a known type employ a transmission-type liquid crystal and ones of another known type employ a reflection-type liquid crystal. In general, the latter permits consumption of electric power to be much saved as ] compared with the former, because ambient light can be utilized for image formation. And it is known that an auxiliary illumination device is mounted on the liquid crystal display to enable the display to perform displaying under the condition of short ambient light such as at night.--
